

## **Avoid Summer Brain Drain With FUN Summer Learning**

- Students lose 3 months of learning over the summer (average)
- Decline is more detrimental for math than reading
- 20-30 minutes a day of fun academics can counter this – in fact, your child can GAIN academic skills over the summer!

**All ages** – Establish a 30-minute “pleasure” reading practice at home every day.

### **Pre-K through Kindergarten**

- Monday and Wednesday – Reading Kingdom or BookFlix by Scholastic <http://www.scholastic.com/parents/> <http://www.readingkingdom.com/>
