

## CLASS Group Coaching (MMCI) and Overview

Build your CLASS expertise to unlock the potential of great teaching in your organization. Our virtual trainings equip observers, coaches, teachers, and everyone in between to see through the CLASS lens, help others see through the CLASS lens and directly impact teaching with CLASS.

### Virtual CLASS® Group Coaching (MMCI)

A coach training and teacher development program designed to build CLASS® proficiency. For organizations seeking to expand their quality improvement efforts, this program trains instructional coaches in the CLASS® Group Coaching model and prepares them to deliver this program to teachers. Proven to positively impact teacher-child interactions, CLASS® Group Coaching is a great solution for organizations looking to scale CLASS® knowledge through professional learning communities.

Teachstone prides itself on participant success. Success in our virtual training is dependent on your attendance and active engagement throughout the training. As such, participants are asked to be on-time each day of the training and engage in whole group and small group discussions and activities.

CLASS is a **research-based method of measuring, evaluating, and improving teacher-student interactions**. CLASS enables high quality interactions which lead to improved academic and social-emotional outcomes for students.

Grounded in our core coaching competencies, group coaching **brings the coaching conversation into a small group context**. It is an intimate conversation space, focused on goal setting, deepening awareness around key issues, taking action, and accountability. ... Group coaching is both a virtual and in-person modality.

A coach training and teacher development program designed to build CLASS proficiency. Proven to positively impact teacher-child interactions, CLASS Group Coaching for Teachers is a great solution for scaling CLASS knowledge through professional learning communities.

Participate in CLASS® Group Coaching to:

- Increase your ability to identify and deepen your
- understanding of the interactions that boost learning
- Observe effective teaching from real classrooms
- Discuss effective interactions in videos and from your own classroom

Goals:

We know that interactions are the classroom experiences that matter most to children's social and academic development, CLASS Group Coaching encourages and supports teachers use of CLASS ® to (1) explain the impact of specific teacher-child interactions on children's learning, (2) identify effective teacher-child interactions in video and in their classrooms, and (3) strengthen their teaching practices by integrating more intentional teacher-child interactions.
